

ENERGY MANAGEMENT POLICY

Polisan Holding aim to apply and develop proactive energy management systems, within the framework of sustainability, in all of their production and service processes of its affiliates. Based on this framework, we commit for an effective energy management;

- to set goals and objectives on the basis of continuous improvement,
- to review goals and objectives periodically and ensure to provide sufficient information, expert and financial resources to achieve them,
- to prefer energy efficient technologies and practices in the production and relevant process,
- to devise projects to lower consumption by monitoring energy quantity,
- to consider to develop advantageous products on energy,
- to comply with all legal and other requirements relating to its processes,
- to train our employees, subcontractors and stakeholders to reduce the consumption of natural resources and minimize energy losses, and use tools that raise awareness.
